

# NATURAL SCIENCES MINOR

---

The Natural Sciences minor provides students with an understanding of the concepts and principles of applying scientific inquiry. Students will be exposed to a range of scientific disciplines. The minor is especially valuable for students in a STEM program such as Biology, Chemistry, Computer Science, Earth Science, Engineering, or Mathematics who want to develop a deeper appreciation of other scientific fields.

The minor is not solely, or even primarily, for Natural Sciences & Mathematics majors. Students from many allied programs, including Kinesiology, pre-Nursing and Education, often pursue minors within the Division. Students interested in acquiring a minor for teacher certification should first consult with their academic advisor and the Education Division.

## Program Requirements

Code	Title	Credits
Select at least one course from each of the following areas: <sup>1</sup>		20.00
	Physical Sciences (PHYS or CHEM)	
	Biological Sciences (BIOL)
